

How to set up bar code and magnetic swipe readers for PROMPT

This procedure explains how to program the Compsee Turbo Wedge bar code reader and Track 1 Magnetic Swipe reader for use with PROMPT Business System software package

Programming the Turbo Wedge 2

1. Set the terminal type as follows:
2. If the terminal type is the VGA main terminal
 - Go to page ID=A-a and scan **Enter Terminal Selection**
 - Next, use the fold out bar code page to scan the numbers **1** and **5**.
 - Last, scan from page ID = A-a **Exit Terminal Selection**
3. If the terminal is the IBM 3153
 - Go to page ID=A-a and scan **Enter Terminal Selection**
 - Next, use the fold out bar code page to scan the numbers **0** and **1**.
 - Last, scan from page ID = A-a **Exit Terminal Selection**
4. Set controls to force an enter after UPC is scanned:
 - Go to page ID=D and scan **Enter Scanner Port selections**
 - Next scan **Postamble**
 - Next, use the fold out bar code page to scan **0** and **od**
 - Last, from page ID=D scan **Exit Scanner Port Selections**

Programming the Track 1, Magnetic Swipe Reader

- a. The cable to the magnetic swipe reader goes into port 3
- b. Go to page ID=C and scan **Enter General II Selections**
- c. Next scan **Auxiliary Port Input**
- d. Next use the fold out bar code page to scan **1**
- e. Then from page ID=C scan **Exit General II Selections**
- f. Not to program the credit card read do the following
- g. Go to page ID=J and scan **Enter Edit Selections**
- h. Next use the fold out bar code page to scan the string below 1 character at a time. The codes are the same for VGA or IBM 3153 except as marked with *.
- i. **01 3G 00 10 01 00 01 00 00 09 01 00 00 01 00**
- j. **02 09* 02 00 00 00 01 00 01 01 2F 08 11 07 03**
- k. * If using a VGA use **00** instead of **09** shown in j.
- l. The IBM 3153 requires the F10 Tabs to be **Auto init tabs = on**

Printing bar code lists for scanning with PROMPT

A PROMPT Report writer with the specification name INUPCRPT is already setup and ready for use, provided the system printer is an HP 2300 L or HP 2420 or similar printer capable of printing barcodes.
